“More Than Meets the Eye” Presentation Presented by Stacey Lareau, and featuring Russ Tuttle, Founder of The Stop Trafficking Project®

Mark your calendar on **Monday, October 21st** for an important adults-only presentation from Stacey Lareau, also featuring Russ Tuttle, Founder of The Stop Trafficking Project®. The presentation will be held at the **Natoma Gymnasium** beginning at **6:45 p.m.**

Our students are enamored with social media and “life online.” Topics covered will include information that adults must know regarding the high levels of our students’ vulnerabilities based on their online activities and how those vulnerabilities can be exploited online. After speaking to more than 245,000 adults and students, BeAlert® is a proven strategy to bring awareness and hope. This presentation will provide valuable insight into the role of technology, apps to be aware of, the essentials of online safety, and give insight into the high demand business of sexual exploitation. You will receive an encouraging reality check and receive tools you can use to help our students.

For the sake of our students, please invite your friends and set aside this evening so we can END it BEFORE it STARTS™.
